

JULIAN RE

FrontEnd Web Developer

Hi! I'm from Argentina. I'm a passionate about web development and a really proactive person. I like finding solutions to peoples' problems and I love teamworking.

Projects

WEATHER APP 2022

- I build an app where you can search a city and it shows you the weather.

SKATESHOP ECOMMERCE 2022

- I build a website where you can find lots of skates and wheels and see their details. It works like an eCommerce but you can't buy anything.

MANAGE LANDING PAGE 2022

- This is a website for Manage.
- Manage makes it simple for software teams to plan day-to-day tasks while keeping the large team goals in view

Education

2022 DigitalHouse

- Certified Tech Developer

JULY 2020 Platzi

- HTML5 - CSS3

JULY 2022 - SEPTEMBER 2022 CoderHouse
