About Me:

Full-stack developer with 2+ years of experience building scalable web applications. Skilled in React, Next.js, and Node.js, with a strong background in data processing and UI/UX design. Passionate about developing efficient and user-friendly solutions that enhance business operations. Open to relocation if necessary.

Experience:

SQLDATA   2023 - 2025
Full-stack Developer.

- *Developed and optimized web applications for supermarkets and logistics companies, improving efficiency and user experience.*
- *Implemented scalable solutions using Next.js, React.js, Node.js, and MySQL, reducing loading times and improving database efficiency.*
- *Collaborated with cross-functional teams to design and deploy high-quality software solutions.*

Analytic Company GmbH   2024
Data Analyst.

- *Processed large datasets for the automotive industry in Germany, optimizing data accuracy and workflow efficiency.*
- *Utilized JavaScript, SQL, and regular expressions to clean and analyze data, fixing key processing bugs.*
- *Developed automated data-fetching scripts, streamlining data integration for clients.*

Importados Beauty   2023
Full-stack Developer.

- Designed and developed a responsive eCommerce platform for a perfume store using React.js, Firebase, and MercadoPago API.
- Led UI/UX design to create an attractive and user-friendly interface, increasing customer engagement.
- Integrated secure payment processing, enhancing transaction reliability and customer satisfaction.
